490.001 Short title.--This chapter may be cited as the "Psychological Services Act."

History.--ss. 1, 3, ch. 81-235; ss. 1, 3, ch. 83-265; ss. 18, 19, ch. 87-252; s. 36, ch. 88-392; ss. 12, 13, ch. 89-70; s. 10, ch. 90-192; s. 4, ch. 91-429.

490.002 Intent.--The Legislature finds that as society becomes increasingly complex, emotional survival is equal in importance to physical survival. Therefore, in order to preserve the health, safety, and welfare of the public, the Legislature must provide privileged communication for members of the public or those acting on their behalf to encourage needed or desired psychological services to be sought out. The Legislature further finds that, since such psychological services assist the public primarily with emotional survival, which in turn affects physical and psychophysical survival, the practice of psychology and school psychology by unqualified persons presents a danger to public health, safety, and welfare.

History.--ss. 1, 3, ch. 81-235; ss. 1, 3, ch. 83-265; ss. 1, 18, 19, ch. 87-252; s. 36, ch. 88-392; ss. 12, 13, ch. 89-70; s. 10, ch. 90-192; s. 4, ch. 91-429.

(q) Performing any treatment or prescribing any therapy which, by the prevailing standards of the mental health professions in the community, would constitute experimentation on human subjects, without first obtaining full, informed, and written consent.

(r) Failing to meet the minimum standards of performance in professional activities when measured against generally prevailing peer performance, including the undertaking of activities for which the licensee is not qualified by training or experience.

64B19-11.0035 Licensure by Examination: Proof Satisfactory to the Board for the Purpose of Determining Eligibility for Examination.

(1) The following proof is satisfactory to the Board for the purpose of showing that the applicant has received a Ph.D. in Psychology, a Psy.D., or an Ed.D. in Psychology from an institution of higher learning recognized and approved by the U.S. States Department of Education or recognized as a member in good standing with the Association of Universities and Colleges of Canada: a true copy of the applicant's transcript confirming same and sent directly to the Board from an institution of higher learning accredited by a regional accrediting agency recognized and approved by the U.S. Department of Education or the Association of Universities and Colleges of Canada.

(2) The following proof is satisfactory to the Board for the purpose of showing that the applicant's degree obtained in the United States or Canada was obtained from a psychology program accredited by a programmatic accrediting agency recognized and approved by the U.S. Department of Education: a true copy of the applicant's transcript confirming same from a doctoral psychology program accredited by an accrediting agency recognized and approved by the United States Department of Education.

(3) The following proof is satisfactory to the Board for the purpose of showing that the applicant's degree obtained in the United States or Canada was obtained from a program comparable to a program accredited by a programmatic accrediting agency recognized and approved by the U.S. Department of Education: an original, signed letter on official letterhead confirming same and sent directly to the Board from the director of a doctoral psychology program accredited by the accrediting agency recognized and approved by the United States Department of Education, provided that the director has not had a relationship with the previously unaccredited institution from which the applicant received a degree that might appear to create a conflict of interest. The letter shall enumerate the exact documents that were reviewed in determining comparability. This letter also shall verify and describe how the applicant's program met all of the criteria set forth in subsection (5).

(4) The following proof is satisfactory to the Board for the purpose of showing that the applicant's degree obtained outside of the United States or Canada was equivalent to a Ph.D. in psychology, a Psy.D., or an Ed.D. in psychology and was obtained from a program equivalent to a program accredited by a programmatic accrediting agency recognized and approved by the U.S. Department of Education: an original, signed letter on official letterhead confirming same and sent directly to the Board from the director of a doctoral psychology program accredited by the accrediting agency recognized and approved by the United States Department of Education. The letter shall enumerate the exact documents that were

reviewed in determining comparability or augmentation. The Board shall also require the validation of degree and internship equivalence performed by a credentials' evaluation service acceptable to the Board.

(5) For a Section 490.005(1)(b)4., F.S., applicant only, the Board will apply the following criteria to determine whether an applicant's doctoral program was a program which maintained a standard of training comparable or substantially equivalent to the standard of training of programs accredited by the accrediting agency recognized and approved by the United States Department of Education:

(a) The doctoral program from which the degree was obtained must be clearly identified and labeled as a psychology program regardless of where it may be administratively housed. The doctoral program must also specify in pertinent institutional catalogs and brochures its intent to educate and train professional psychologists.

(b) The program, itself, must stand as a recognizable, coherent organizational entity within the institution.

(c) The program faculty must exercise clear authority and primary responsibility for the academic core and specialty preparation, regardless of whether the program also involves multiple administrative lines.

(d) The doctoral program must be an organized integrated sequence of study designed by the psychology faculty responsible for the program.

(e) There must be an identifiable psychology faculty. The program director must be a psychologist.

(f) The program must have an identifiable body of students who are matriculated in that program for a doctoral degree. Each student in the program must complete the same core of academic study, the elements of which are selected from a group of core courses designed and offered by the psychology faculty.

(g) The doctoral program must require a minimum of three academic years of full-time graduate study, defined as at least 18 credit hours per year, at least two academic years of which must be at a single institution, and one year of which must be in full-time residence at the institution from which the doctoral degree is granted. A program does not meet the criterion of a full-time residency on campus unless it:

1. Provides students with continuous access to a core psychology faculty whose primary time and employment responsibilities are to the educational institution;
2. Provides students with continuous access to other students matriculated in the program;
3. Provides students with continual access to an array of educational resources including library, clinical training sites, research facilities, etc.;
4. Provides for continuous collegial and administrative evaluation of the educational process;
5. Requires a period of continuous enrollment of not less than two out of three successive semesters attending classes on the campus of the institution from which the doctoral degree is granted. An internship year may not be used toward meeting the academic year requirements of this criterion.

(h) The doctoral program must include a supervised practicum of at least 400 hours, and field or laboratory training appropriate to the practice of psychology. The 400 hour required practicum must include at least seventy-five (75) hours of supervision.

(i) The doctoral program must require each student to have successfully completed a graduate level course in each of the following areas of psychology:

1. Biological bases of behavior (e.g., physiological psychology, comparative psychology, neuropsychology, sensation and perception, psychopharmacology);
2. Cognitive-affective bases of behavior (e.g., learning, memory, cognition, thinking, motivation, emotion);
3. Social bases of behavior (e.g., social psychology, cultural-ethnic and group processes, sex roles, organization and systems theory);
4. Individual behavior (e.g., personality theory, human development, individual differences, abnormal psychology, psychology of women, psychology of persons with disabilities);

5. Scientific and professional ethics and standards;
6. Research design and methodology;
7. Statistics;
8. Psychological measurements; and
9. History and systems of psychology.

(j) The program must require participation in a formal one-year internship. A formal one-year internship is defined as:

1. An internship accredited by the American Psychological Association, or
2. An internship which meets all of the following criteria:
 - a. The internship was an organized training program. It was not merely supervised experience or on-the-job training. Rather, it was designed to provide the intern with a planned, programmed sequence of training experiences, the primary focus and purpose of which was to assure breadth and quality of training.
 - b. The internship agency had a clearly designated staff-psychologist who was responsible for the integrity and quality of the training program and who was actively licensed or certified by the Board of Psychology.
 - c. The internship agency had two or more psychologists on the staff as supervisors, at least one of whom was actively licensed as a psychologist by the Board of Psychology.
 - d. Internship supervision was provided by a staff member of the internship agency or by an affiliate of that agency who carried clinical responsibility for the cases being supervised. At least half of the internship supervision was provided by one or more psychologists.
 - e. The internship provided training in a range of assessment and treatment activities conducted directly with clients seeking psychological services.
 - f. At least 375 hours of the intern's time was in direct client contact.
 - g. The internship included at least two hours per week (regardless of whether the internship was completed in one year or two) of regularly scheduled, formal, face-to-face individual supervision with the specific intent of dealing with psychological services rendered directly by the intern. There must also have been at least two additional hours per week in learning activities such as: case conferences involving a case in which the intern was actively involved; seminars dealing with clinical issues; co-therapy, including follow-up discussion, with a staff person; group supervision; and additional individual supervision.
 - h. The training was post-clerkship, post-practicum, and post-externship level.
 - i. The internship agency had a minimum of two interns at the internship level of training during the applicant's internship period.
 - j. The intern had a title which described the intern's status as a trainee. Titles such as "intern," "resident," or "fellow," are examples of the types of titles which would be indicative of the intern's status as a trainee.

64B19-11.005 Supervised Experience Requirements.

The law requires 4,000 hours of supervised experience for licensure. The Board recognizes that the applicant's internship satisfies 2,000 of those hours. This rule concerns the remaining 2,000 hours.

(1) Definitions. Within the context of this rule, the following definitions apply:

(a) "Association" or "in association with": the supervisory relationship between the supervisor and the psychological resident.

(b) "Psychology Resident or Post-Doctoral Fellow." A psychology resident or post-doctoral fellow is a person who has met Florida's educational requirements for licensure and intends from the outset of the supervised experience to meet that part of the supervised experience requirement for licensure which is not part of the person's internship.

(c) "Supervisor." A supervisor is either a licensed Florida psychologist in good standing with the Board, or a doctoral-level psychologist licensed in good standing in another state providing supervision for licensure in that state. However, where the psychology resident or post-doctoral fellow is on active duty with the armed services of the United States, the supervisor may be a doctoral-level psychologist licensed in good standing in any state, regardless of where the supervision is conducted.

(d) All applicants for licensure shall use the title psychology resident or post-doctoral fellow until licensed as a psychologist.

(e) The psychology resident or post-doctoral fellow shall inform all service users of her or his supervised status and provide the name of the supervising psychologist. Consultation reports, and summaries shall be co-signed by the supervising psychologist. Progress notes may be co-signed at the discretion of the supervision psychologist.

(2) Requirements and Prohibitions. All applicants for licensure must complete at least 2,000 hours of post doctoral experience under a supervisor whose supervision comports with subsection (3) of this rule.

(a) There may be no conflict of interest created by the supervisory association and no relationship may exist between the supervisor and the psychological resident except the supervisory association.

(b) A psychology resident or post-doctoral fellow may be supervised by more than one supervisor. If there is more than one supervisor, however, then one of the supervisors must be identified as the primary supervisor. The primary supervisor shall be the supervisor who enters into the agreement with the applicant for licensure, for supervision, and who integrates all of the applicant's supervisory experiences.

(c) The post-doctoral training must be a cohesive and integrated training experience which meets the following criteria:

1. It averages at least twenty (20) hours a week over no more than one hundred and four (104) weeks. Alternatively, it averages no more than forty (40) hours a week over no more than fifty-two (52) weeks;

2. It requires at least 900 hours in activities related to direct client contact;

3. It includes an average of at least two (2) hours of clinical supervision each week, at least one (1) hour of which is individual face-to-face supervision.

(3) Supervisors' Responsibilities. The Board requires each primary supervisor to perform and to certify that the primary supervisor has:

(a) Entered into an agreement with the applicant for licensure, which details the applicant's obligations and remuneration as well as the supervisor's responsibilities to the applicant;

(b) Determined that the psychology resident or post-doctoral fellow was capable of providing competent and safe psychological service to that client;

(c) Maintained professional responsibility for the psychology resident or post-doctoral fellow's work;

(d) Provided two (2) hours of clinical supervision each week, one (1) hour of which was individual, face-to-face supervision;

- (e) Prevailed in all professional disagreements with the psychology resident or post-doctoral fellow;
- (f) Kept informed of all the services performed by the psychology resident or post-doctoral fellow;
- (g) Advised the Board if the supervisor has received any complaints about the psychology resident or post-doctoral fellow or has any reason to suspect that the resident is less than fully ethical, professional, or qualified for licensure.

(4) Until licensure, an individual who completes post doctoral training residency may continue to practice under supervision so long as the individual does so in the manner prescribed by this rule and so long as the individual has applied for licensure and no final order of denial has been entered in the application case before the Board.

(2) The Board may grant an additional twelve (12) months to comply with the requirements of subsection (1) above, of up to 36 months, to any applicant who files a written request for extension and demonstrates that the applicant has made a good faith effort to comply but has failed to comply because of illness or unusual hardship.

(b) Having been disciplined by any regulatory body in any jurisdiction for sexual misconduct or for any action involving the trespass of sexual boundaries;

satisfaction of the Board, grant licensure and place the applicant on probation under reasonable terms and conditions:

(b) Having been found guilty, regardless of adjudication, of any crime in any jurisdiction.

(3) The determination of which action the Board will take in the case of an applicant under subsection (2) is controlled by the Board's consideration of the mitigating and aggravating circumstances set forth in subsection 64B19-17.002(2), F.A.C.

(4) A plea of nolo contendere creates a rebuttable presumption of guilt of the underlying criminal charges. The presumption cannot be overcome absent clear and convincing evidence of applicant's innocence of the underlying criminal charges.

(3) If electronic notification is used, it shall be the responsibility of the licensee to ensure that the electronic notification was received by the Department.

64B19-13.003 Continuing Psychological Education Credit.

(1) Continuing psychological education credit will be granted for:

(a) Completion of graduate level courses approved for credit by sponsors approved by the American Psychological Association;

(b) Completion of graduate level courses in psychology provided by a university or professional school which is regionally accredited, except that no more than ten (10) hours of continuing psychological education credit may be obtained for each semester hour;

(c) Completion of a colloquium, a presentation, a workshop or a symposium offered for continuing education credit by a doctoral psychology program or an internship or residency which is part of a psychology program that is accredited by the American Psychological Association;

(d) Full attendance at workshops/seminars offered by providers approved by the American Psychological Association or any of its affiliates, or providers approved by the Board. A list of Board approved providers is available from the Board office upon request;

(e) Simple attendance at a state, regional or national psychology convention or conference. Only four (4) credits will be allowed each biennium regardless of how many state, regional or national conventions or conferences are attended during that biennium;

(f) Attainment of diplomate status in a specialty area from the American Board of Professional Psychology, for which thirty-seven (37) continuing psychological education credits, not including the two-hour continuing education course on domestic violence required by Section 456.031(1), F.S., and the two-hour continuing education course on the prevention of medical errors required by Section 456.013(7), F.S., will be allowed only during the biennium during which the diplomate is first awarded;

(g) Presenting or moderating for the first time only a continuing psychological education program sponsored by a provider approved by the Board, except that credit will be limited to the number of credits allowed by the program;

(h) Each hour of attendance at a Board meeting or Board committee meeting. Only one credit will be granted for each hour of full attendance and only ten (10) credits will be allowed each biennium regardless of how many hours are attended during the biennium. Attendance at a Board or committee meeting shall also satisfy, hour by hour, the requirement of professional ethics and legal issues credit set out in subsection (3) of this rule.

(i) Continuing education courses approved by any Board within the Division of Medical Quality Assurance of the Department of Health, provided that such courses enhance the psychological skills and/or psychological knowledge of the licensee.

(j) The provision of volunteer expert witness opinions for cases being reviewed pursuant to laws and standards relevant to the practice of psychology. Two hours of credit shall be awarded for each case reviewed up to a maximum of ten hours per biennium. In this regard, volunteer expert witnesses are expected to perform a review of the psychological, medical, legal, and/or ethical literature, as appropriate to the case being reviewed.

(2) No continuing psychological education credit may be earned for:

(a) Regular work activities as a psychologist;

(b) Membership, office in, or participation on boards or committees of professional organizations;

(c) Independent, unstructured or self-structured learning;

(g) Home study except from providers approved by the American Psychological Association or any of its affiliates.

(3) As a condition of biennial licensure renewal, each licensee must complete forty (40) hours of continuing psychological education.

(a) Three (3) of the forty (40) hours must be on professional ethics and Florida Statutes and rules affecting the practice of psychology.

(b) Two (2) of the forty (40) hours must relate to prevention of medical errors. In addition to the study of root-cause analysis, error reduction and prevention, and patient safety, the course content shall also be designed to discuss potential errors within a psychological setting, such as inadequate assessment of suicide risk, failure to comply with mandatory abuse reporting laws, and failure to detect medical conditions presenting as a psychological disorder. If the course is offered by a facility licensed pursuant to Chapter 395, F.S., for its employees, the Board will approve up to one (1) hour of the two (2) hour course to be specifically related to error reduction and prevention methods used in that facility.

(c) Passage of the laws and rules examination of the Board constitutes forty (40) hours of continuing education credit, including credit for professional ethics and Florida Statutes and rules affecting the practice of psychology. Passage of the laws and rules examination, however, does not satisfy the requirement for the two (2) credit hours of continuing education on domestic violence required every third biennial licensure renewal period, nor the requirement for two (2) hours relating to prevention of medical errors.

(4) The licensee shall maintain, and make available upon request, documentation to substantiate continuing psychological education credit required by the Board. The licensee shall retain such documentation for two (2) years following the renewal period during which the continuing psychological education credit was required.

(5) Every six years, each licensee shall complete two (2) hours of continuing psychological education on domestic violence as defined in Section 741.28, F.S.; these two (2) hours shall be part of the forty (40) hours otherwise required for each biennial licensure renewal. The licensee shall maintain documentation to substantiate timely completion of these two (2) hours and make said documentation available upon request every third biennial licensure renewal period.

64B19-13.004 Board Approval of Continuing Psychological Education Providers.

(1) To obtain or renew provider status, the applicant must demonstrate to the Board's satisfaction that the programs to be offered by the applicant will:

(a) Enhance psychological skills or psychological knowledge;

(b) Be of sufficient duration to adequately address the subject matter of the program;

(c) Be taught by an individual who has at least two (2) years of education or research in, or practical application of, the subject matter of the program.

(2) To allow the Board to evaluate the prospective provider's initial application, the applicant must submit the following:

(a) A narrative description of one (1) program to be offered by the provider to psychologists for credit. The narrative must include sufficient information to show that the program meets the criteria of subsection (1) of this rule. The narrative must also include research to be relied upon in the presentation of the program;

(b) All promotional material concerning that program;

(c) The learning objectives of the program;

(d) The name of the instructor for the program;

(e) The qualifications of the instructor to conduct that program;

(f) A sample of the program evaluation form to be completed by each program attendee;

(g) A sample certificate of completion;

(h) A nonrefundable application fee of \$500.

(3) The “enhancement of psychological skills or knowledge” occurs only when the program increases the ability of licensed psychologists to deliver psychological services to the public. Such programs presume a basic level of psychological education and training that is beyond the undergraduate level. The program may focus on the further development of already existing psychological skills or knowledge. The program may encourage interdisciplinary approaches to the delivery of psychological services. The program may introduce recent scientific findings in an area that impacts on the practice of psychology, or the program may focus on a specific area of expertise not covered by general psychological education and training. As a general rule, a program that is designed to appeal to the general public will probably not be a program that will enhance psychological skills or knowledge.

(b) Provide each program attendee with an evaluation form which contains the following words: The Board of Psychology will not revoke the continuing psychological education credit given to any psychologist for the completion of any continuing psychological education program sponsored by a provider whose status is later revoked by the Board as a result of any complaint registered against the program by a psychologist;

(c) Retain originals of program evaluation forms for three (3) years from the date on which the program is conducted and provide those forms to the Board upon request;

(g) Notify the Board within two (2) weeks of any change in the address of the provider;

(h) Give the Board thirty (30) days advance notice of any significant change in the programs on file with the Board;

(i) Maintain active status as a continuing psychological education provider by conducting at least one (1) program a year for psychologists, renewing provider status each biennium, and paying the biennial renewal fee of \$500 so that it is postmarked no later than the last date of the biennial renewal period;

(j) Allow the Department of Health and the Board’s designee to have access to information concerning programs conducted by the provider for continuing psychological education credit to psychologists for credit; and

(k) Provide to psychologists those programs that meet the criteria of subsection 64B19-13.004(1), F.A.C.

64B19-16.001 Probable Cause Panel

64B19-16.001 Probable Cause Panel.

(1) The Chairperson of the Board shall appoint at least two people to the probable cause panel and shall designate its chairperson. The appointed people shall be either current Board members or at least one current Board member and one or more former members of the Board. Not more than one member of the panel may be a lay member. 64B19-16.003 Sexual Misconduct in the Practice of Psychology.

(1) In accordance with the intent of Chapter 490, Florida Statutes, to preserve the health, safety and welfare of the public, sexual misconduct as defined herein is prohibited. The Board finds that the effects of the psychologist-client relationship are powerful and subtle and that clients are influenced consciously and subconsciously by the unequal distribution of power inherent in such relationships. The Board also

finds that sexual intimacies with a former client are frequently harmful to the client, and that such intimacies undermine public confidence in the psychology profession and thereby deter the public's use of needed services. Furthermore, the Board finds that the effects of the psychologist-client relationship endure after psychological services cease to be rendered. Therefore, the client shall be presumed incapable of giving valid, informed, free consent to sexual activity involving the psychologist and the assertion of consent by the client shall not constitute a defense against charges of sexual misconduct.

(2) It shall constitute sexual misconduct for a psychologist, who is involved in a psychologist-client relationship, to engage, attempt to engage, or offer to engage the client in sexual intercourse or other sexual behavior. Sexual behavior includes, but is not limited to, kissing, or the touching by either the psychologist or the client of the other's breasts or genitals.

(3) It shall constitute sexual misconduct for a psychologist, who is involved in a psychologist-client relationship, to engage the client in verbal or physical behavior which is sexually arousing or demeaning to the client unless:

(a) Such behavior is for the purpose of treatment of psycho-sexual disorders or dysfunctions; and

(b) Such behavior complies with generally accepted professional standards for psychological treatment of the client's specific psycho-sexual disorders or dysfunctions.

(4) It shall constitute sexual misconduct for a psychologist who is involved in a psychologist-client relationship to use the influence inherent in that relationship to induce the client to engage in sexual conduct with a third party unless:

(a) Such inducement is consistent with the planned psychological treatment of the client's specific psychological, social, or sexual dysfunctions or disorders; and

(b) Treatment is provided in accordance with generally accepted professional standards for psychological treatment.

(5) A psychologist-client relationship exists whenever a psychologist has rendered, or purports to have rendered, psychological services including, but not limited to, psychotherapy, counseling, assessment or treatment to a person. A formal contractual relationship, the scheduling of professional appointments, or payment of a fee for services are not necessary conditions for the existence of a psychologist-client relationship, though each of these may be evidence that such a relationship exists.

(a) The determination of when a person is a client for purposes of this rule is made on a case by case basis with consideration given to the nature, extent, and context of the professional relationship between the psychologist and the person. The fact that a person is not actively receiving treatment or professional services from a psychologist is not determinative of this issue. A person is presumed to remain a client until the psychologist-client relationship is terminated.

(b) The mere passage of time since the client's last visit to the psychologist is not solely determinative of whether or not the psychologist-client relationship has been terminated. Some of the factors considered by the Board in determining whether the psychologist-client relationship has terminated include, but are not limited to, the following:

1. Formal termination procedures;
2. Transfer of the client's case to another psychologist;
3. The length of time that has passed since the client's last visit to the psychologist;
4. The nature and duration of the professional relationship;
5. The extent to which the client has confided personal or private information to the psychologist;
6. The nature of the client's personal history;
7. The degree of emotional dependence that the client has on the psychologist;
8. The circumstances of termination of the professional relationship;
9. The client's current mental status;
10. The likelihood of adverse impact on the client and others; and
11. Any statements or actions by the psychologist during the provision of psychological services suggesting or inviting the possibility of a post-termination sexual or romantic relationship with the client.

(c) Sexual conduct between a psychologist and a former client after termination of the psychologist-client relationship will constitute a violation of the Psychological Services Act if the sexual contact is a result of the exploitation of trust, knowledge, influence or emotions, derived from the professional relationship.

(d) A client’s consent to, initiation of, or participation in sexual behavior or involvement with a psychologist does not change the nature of the conduct nor lift the statutory prohibition.

(e) Upon a finding that a psychologist has committed unprofessional conduct by engaging in sexual misconduct, the Board will impose such discipline as the Board deems necessary to protect the public. The sanctions available to the Board are set forth in Rule 64B19-17.002, F.A.C., and include restriction or limitation of the psychologist’s practice, revocation or suspension of the psychologist’s license.

The following rules pertain to the requirement in Section 490.012(2), F.S., that licensees must include the words “licensed psychologist” on all professional advertisements:

(1) A professional advertisement is any medium used to solicit clients, such as a listing in the yellow pages of a telephone book or an announcement of the availability of services in the newspaper or on the radio or television.

(2) Business cards and stationery are not professional advertisements.

(3) A listing in the white pages of a telephone book is not a professional advertisement unless the listing is distinguishable from the listings of non-licensees.

(6) The Board recognizes that in some instances, a psychologist may not be aware of the fact that a yellow page listing exists for the psychologist. For that reason, the Board will not prosecute the psychologist unless the listing was paid for by the psychologist or by anyone other than the yellow page company. Upon receipt of information that a yellow page listing exists, however, the psychologist must either prevent a future listing from occurring or pay for the insertion of the words “licensed psychologist” in the listing.

The training of a psychologist practicing juvenile sexual offender therapy must include:

64B19-18.004 Use of Test Instruments.

(1) The Board finds that the inappropriate use of test instruments is harmful to consumers. The Board finds further that a need exists to set out the minimum standard of professional practice maintained and required of psychologists who use test instruments in the psychologist's practice of psychology.

(2) A psychologist who uses test instruments in the psychologist's practice of psychology:

(a) Must consider whether research supports the underlying presumptions which govern the interpretive statements which would be made by the test instrument as a result of its completion by any service user;

(b) Must be able to justify the selection of any particular test instrument for the particular service user who takes the test at the instruction of the psychologist;

(c) Must integrate and reconcile the interpretive statements made by the test instrument based on group norms, with the psychologist's independent professional knowledge, evaluation and assessment of the individual who takes the test;

(d) Must specify in the test report the name of each person who assisted the psychologist in the administration of the test, and the role which that person played in the administration of the test.

(3) A psychologist who uses test instruments may not release test data, such as test protocols, test questions, assessment-related notes, or written answer sheets, except (1) to a licensed psychologist or school psychologist licensed pursuant to Chapter 490, F.S., or Florida certified, or (2) after complying with the procedures set forth in Rule 64B19-19.005, F.A.C., and obtaining an order from a court or other tribunal of competent jurisdiction, or (3) when the release of the material is otherwise required by law. When raw test data is released pursuant to this paragraph, the psychologist shall certify to the service user or the service user's designee that all raw test data from those test instruments have been provided. Psychologists are expected to make all reasonable efforts to maintain the integrity of the test protocols, modalities and instruments when releasing information as provided herein.

(4) In performing the functions listed at subsection (2) of this rule, the psychologist must meet with the test subject face-to-face in a clinical setting unless the psychologist has delegated the work to a psychological intern, psychological trainee or psychological resident in a doctoral psychology program approved by the American Psychological Association.

(5) It shall be a violation of this rule for a psychologist to sign any evaluation or assessment unless the psychologist has had an active role in the evaluation or assessment of the subject as required by subsection (4) of this rule. A psychologist may not sign any evaluation or assessment that is signed by any other person unless the psychologist is signing as a supervisor, in conjunction with an evaluation or assessment performed by a psychological intern, psychological trainee or psychological resident, or as a member of a multidisciplinary diagnostic team.

(6) "Test instruments" are standardized procedures which purport to objectively measure personal characteristics such as intelligence, personality, abilities, interests aptitudes, and neuropsychological functioning including evaluation of mental capacity to manage one's affairs and to participate in legal proceedings. Examples of such tests include intelligence tests, multiple aptitude batteries, tests of special aptitudes, achievement tests, and personality tests concerned with measures of emotional and motivational functioning, interpersonal behavior, interests, attitudes and other affective variables.

64B19-18.005 Consent for Treatment of Minors.

For the purpose of discipline, the Board will not consider it a violation for a psychologist to treat a minor in

an emergency situation, such as crisis intervention, without the consent of an adult so long as the psychologist abides by state law governing the emergency treatment of minors. Nor will the Board consider it a violation for a psychologist to treat a minor upon the psychologist's receipt of written permission from any adult who claims to have authority to consent to treatment. This rule, however, may not be used to circumvent other disciplinary action against the psychologist in the substantive provision of treatment to the minor.

64B19-18.007 Requirements for Forensic Psychological Evaluations of Minors for the Purpose of Addressing Custody, Residence or Visitation Disputes.

(1) For the purposes of this rule the following definitions apply:

- (a) "Parent" means parent or legal guardian identified by the court order.
- (b) "Child(ren)" means those identified by the court order.

(2) The minimum standard of performance in court-ordered child custody evaluation and family law proceedings includes, but is not limited to, the following:

(a) The psychologist shall adhere to the "APA Guidelines for Child Custody Evaluations in Divorce Proceedings," effective July, 1994, and the "Specialty Guidelines for Forensic Psychologists," effective March 9, 1991. These guidelines are incorporated by reference and copies may be obtained from the Board office. The APA Guidelines for Child Custody Evaluations in Divorce Proceedings are also available at: www.apa.org/practice/childcustody.html.

(b) The psychologist who has accepted an appointment as an evaluator shall not serve as guardian ad litem, mediator, therapist or parenting coordinator regarding the children in the instant case. The psychologist who has had a prior role as guardian ad litem, mediator, therapist or parenting coordinator shall not accept an appointment as an evaluator for the children in the instant case.

(c) The psychologist shall inform the parents or legal guardian in writing and obtain their signature verifying notification of the limits of confidentiality.

(d) The psychologist shall submit the evaluation report pursuant to court order or provide prior notification to the court, if the report will not be provided by the due date.

(e) The evaluation report shall include all of the following. The failure to include any of the following shall be documented.

1. Evaluations of both parents, or legal guardian including observations, test results, and impressions.
2. Evaluations of the children identified in the court order including observations and where appropriate, test results and impressions.
3. Description of interactions between each parent or legal guardian and each child identified in the court order.
4. Collateral sources of information as needed.
5. Request medical records as needed.

(3) It is a conflict of interest for a psychologist who has treated a minor or any of the adults involved in a custody or visitation action to perform a forensic evaluation for the purpose of recommending with which adult the minor should reside, which adult should have custody, or what visitation should be allowed. Consequently, a psychologist who treats a minor or any of the adults involved in a custody or visitation action may not also perform a forensic evaluation for custody, residence or visitation of the minor. So long as confidentiality is not violated, a psychologist may provide a court, or a mental health professional performing a forensic evaluation, with factual information about the minor derived from treatment, but shall not state an opinion about custody, residence or visitation disputes.

To obtain Board approval as a certifying body, eligible to grant formal recognition declaring a licensed psychologist to be a “certified psychology specialist,” board-certified psychology specialist,” or a “psychology diplomate,” pursuant to Section 490.0149, F.S., an applicant shall file a petition demonstrating that it:

(4) Has implemented and documented a comprehensive assessment procedure, designed to measure the competencies required to provide services characteristic of the specialty area, that describes security and grading standards, and consists of an oral examination and peer-review of practice samples and may include a written examination.

64B19-19.005 Releasing Psychological Records.

(1) Any licensed psychologist who agrees to provide copies of psychological records to a service user, a service user's designee, or a service user's legal representative, shall be accorded a reasonable time, not to exceed thirty (30) days, to make final entries and copy the psychological records, and may condition release of the copies upon payment by the requesting party of the reasonable costs of reproducing the records.

(2) Any licensed psychologist who opts to issue a report rather than provide copies of psychological records to a service user, a service user's designee, or a service user's legal representative, shall issue the report within thirty (30) days of the request, and may charge a reasonable fee for the preparation of the report and may condition the issuance of the report upon payment of the reasonable fee.

(3) The psychologist's notes pertaining to psychological services rendered may be considered raw data as provided by subsection 64B19-18.004(3), F.A.C., at the discretion of the psychologist and therefore can be released only (1) to a licensed psychologist or school psychologist licensed pursuant to Chapter 490, F.S., or Florida certified, or (2) when the release of the material is otherwise required by law.

Specific Authority 456.057, 490.004(4) FS. Law Implemented 456.057, 490.009(2)(n), 490.0147 FS. History—New 8-12-90, Amended 7-14-93, Formerly 21U-22.005, Amended 6-14-94, Formerly 61F13-22.005, Amended 11-19-96, Formerly 59AA-19.005, Amended 9-18-97, 6-4-02.

64B19-19.006 Confidentiality.

(1) One of the primary obligations of psychologists is to respect the confidentiality of information entrusted to them by service users. Psychologists may disclose that information only with the written consent of the service user. The only exceptions to this general rule occur in those situations when nondisclosure on the part of the psychologist would violate the law. If there are limits to the maintenance of confidentiality, however, the licensed psychologist shall inform the service user of those limitations. For instance, licensed psychologists in hospital, subacute or nursing home settings should inform service users when the service user's clinical records will contain psychological information which may be available to others without the service user's written consent. Similar limitations on confidentiality may present themselves in educational, industrial, military or third-party payment situations, and in each of the circumstances mentioned herein or in each similar circumstance, the licensed psychologist must obtain a written statement from the service user which acknowledges the psychologist's advice in those regards. This rule is particularly applicable to supervisory situations wherein the supervised individual will be

sharing confidential information with the supervising psychologist. In that situation, it is incumbent upon the licensed psychologist to secure the written acknowledgement of the service user regarding that breach of confidentiality.

(2) In cases where an evaluation is performed upon a person by a psychologist for use by a third party, the psychologist must explain to the person being evaluated the limits of confidentiality in that specific situation, document that such information was explained and understood by the person being evaluated, and obtain written informed consent to all aspects of the testing and evaluative procedures.

(3) This rule recognizes that minors and legally incapacitated individuals cannot give informed consent under the law. Psychologists, nonetheless, owe a duty of confidentiality to minor and legally incapacitated service users consistent with the duty imposed by subsection (1). This does not mean that the psychologist may not impart the psychologist's own evaluation, assessment, analysis, diagnosis, or recommendations regarding the minor or legally incapacitated individual to the service user's guardian or to any court of law.

(4) The licensed psychologist shall maintain the confidentiality of all psychological records in the licensed psychologist's possession or under the licensed psychologist's control except as otherwise provided by law or pursuant to written and signed authorization of a service user specifically requesting or authorizing release or disclosure of the service user's psychological records.

(5) The licensed psychologist shall also ensure that no person working for the psychologist, whether as an employee, an independent contractor, or a volunteer violates the confidentiality of the service user. *Specific Authority 490.004(4) FS.
